

ENVIRONMENTAL PROTECTION AND ENHANCEMENT PROGRAMS

Status of Progressive Rehabilitation Efforts

Atty. Dante R. Bravo
President, Philippine Nickel Industry Association

Nickel Initiative Talks and Webinar Series
23 October 2020

**PHP 202.95
million
invested on
EPEP between
Q1-Q2 2020**

6.59 million
trees planted to
date across
3,167 hectares

809,656 trees were
planted over **322 hectares**
between January to
August 2020 alone

Research is conducted to identify suitable species for specific areas in the mine site.

Over **70 different tree species** planted, including Narra, Agoho, Coconut, and Maribuhok.

Nursery in Claver, Surigao del Norte

Nursery in Agusan del Norte

Nursery in Carrascal, Surigao del Sur

PNIA Members monitor their various plant nurseries and study the development of plants before undertaking large – scale planting activities.

Even before MGB and DENR mandated bamboo plantations in mine sites, PNIA members have already planted 23,000 bamboo seedling covering 56.54 hectares in 2019.

Between January to August 2020, member companies planted more than 23,100 bamboo seedlings over 43 hectares of land.

In compliance with the 2020 MGB mandate, members have already planted 99.54 hectares of their committed total bamboo plantation hectarage of 305.46 hectares, aimed to be completed by the end of the 2020.

As of August 2020, 94,970 mangroves have been planted by PNIA mining companies in line with their rehabilitation efforts.

PNIA companies conducted 17 coastal and river clean-ups this 2020 in Surigao del Sur, Surigao del Norte, Agusan del Norte, Zambales, and Palawan.

THANK YOU.
